

QUICK GUIDE

PRODUCT SETTINGS

The screenshot shows the 'Template integrations' section of the 'C-XYZ / Compliance' settings. The breadcrumb trail is 'C-XYZ / Compliance' > 'PRODUCT SETTINGS' > 'MODULE SETTINGS'. The left sidebar has 'Module management' selected. The main content area has a sub-header 'Template integrations'. Below it is a table with two columns: 'Integration title' and 'Associated products'. There is one row with the title 'Change Task Integration Template' and the value 'Change'.

Integration title	Associated products
Change Task Integration Template	Change

Template Integration lets you make tasks available for use with InEight Change and other products. It also allows you to create an issue from Compliance or Completions to Change.

The screenshot shows the 'Module management' section of the 'C-XYZ / Settings' page. The breadcrumb trail is 'C-XYZ / Settings' > 'PRODUCT SETTINGS' > 'MODULE SETTINGS'. The left sidebar has 'Module management' selected. The main content area has a sub-header 'Module management'. Below it is a table with four columns: 'Module name', 'Description', 'Secondary module name', and 'Inspection and Test Plans'. There are five rows: Safety, Environmental, Compliance, Change, and Custom. Each row has a green checkmark in the 'Inspection and Test Plans' column, except for the 'Custom' row which has a red circle with a slash.

Module name	Description	Secondary module name	Inspection and Test Plans
Safety	A module to track and manage safety related business processes.	Safety	✓
Environmental	A module to track and manage environmental related business processes.	Environmental	✓
Compliance	A module to track and manage compliance related business processes.	Compliance	✓
Change	A module to track and manage change related business processes.	Change	✓
Custom	A module to track and manage custom related business processes.	Custom	✗

Module Management indicates the different module tiles your company is using. The ITP toggle turns on/off the modules related ITP screens.
